Denfeld Nation Automation (DNA) Update for Week 4

Greetings Sponsors,

This week our build and electrical sub teams have been busy completing their goals for this week! The build team has completed a game piece manipulator and our drivetrain and electrical teams have been piecing together the electronics board to mount on our robot. The programming team has completed the gyro code, and is currently working on finishing the practice robot code. Additionally, our spirit design team has finalized and submitted our FIRST avatar for our competitions. The business team has been working on the Entrepreneurship Award submission. The Awards team is continuing their work on the Chairman's Award from last week.

Stay tuned for the following weekly updates. Please let us know if you prefer to be removed from these emails or if there are other people in your organization that we should add.

Thanks again for your support this year.

ROBOTICS IS IN OUR BLOOD
