Denfeld Nation Automation (DNA) Update for Kickoff

Greetings,

It's that time of the year again and *FIRST* has announced their new challenge. This year, we joined the Duluth East Daredevils at their auditorium to watch the live unveiling of this year's game. Afterward, our team headed over to the American Legion to go over the new game manual in-depth and began discussing possible robot designs, including potential game strategies. We took this time to plan possible prototypes and figure out how we would tackle certain aspects of this new game. Following discussions, we were able to create a preliminary design of our robot to mockup in a CAD (Computer-Aided Design) program to bring our design to life.

If you want to learn more about this year's competition, click the following link to see this season's challenge video. <https://youtu.be/LgniEjI9cCM>

We are very excited to be in the 2022 build season! In order to keep up with our progress, make sure to check out our social media sites and stay tuned for the following weekly updates.
